Good afternoon:

In light of the recent attacks in Paris and Mali, it is important for all of us to remain vigilant. One way to do this is through community involvement.

The Los Angeles Police Department's Counter Terrorism mission is to detect, deter, and prevent future attacks to the Los Angeles area and the communities we protect. We are partnering with the 3.93 million residents of our city by re-launching the iWatch program (If you See Something, Say Something) as well as launching the mobile application. The Department encourages our community members to sign up for the new free **iWatch LAPD Application**. Counter-Terrorism and Special Operations Bureau, via the Terrorism Liaison Officers (TLO), has already disseminated this information at division roll calls, Area CPAB meetings, Neighborhood Watch meetings, Clergy Council meetings, Community Police Academies, etc. The citizens of the City of Los Angeles are encouraged to participate in one of the above community-based groups to further strengthen awareness and security among our citizenry.

Attached you will find the LAPD iWatch brochure and images of how the application looks on your phone.
